Allie Braswell's Statement Regarding Governor Ron DeSantis and the Florida Republicans' Unconstitutional Congressional Map

Orlando, Florida - Allie Braswell, candidate for Florida House District 45, made the following statement in opposition to the recent Congressional District map proposal by Florida Governor Ron DeSantis and passed by the Florida State Legislature which is blatantly discriminatory against black voters.

Braswell said, "These congressional districts were drawn not only to help give Governor DeSantis's friends an easy path to congress, but more importantly to suppress the votes and voices of black people throughout the state. It's clear to me that Central Florida is under attack by its own Governor by the actions he's taken during this special session and the Republicans in the State House and State Senate are enabling him to do so."

Braswell continued, "The Republican Party of Florida is not the party of freedom nor are they the business-friendly party. They're the party that punishes anyone who dares speak out against their authoritarian leadership in the state."
